

For Immediate Release | February 7, 2022

Water Supply Assessment to be presented to Ridgway Town Council on February 28th

Ridgway, CO – LRE Water, Inc. was retained by the Town of Ridgway last summer to complete an investigative study of the Town’s water supply system. The objective of this investigation was first to quantify the Town’s existing and future water demands, then to evaluate the adequacy of the Town’s existing water supply system to meet those demands, and finally to identify any deficiencies in either available physical or legal supply.

LRE Water is nearing completion of the *Water Supply Assessment*, which is the culmination of the investigative study. Once the Assessment is finalized it will be made available to the public on the Town’s website at <https://townofridgway.colorado.gov/>.

LRE Water staff will present the findings of the study and recommended strategies to assist the Town in securing and maintaining a long term, reliable water supply at a Town Council Workshop scheduled for Monday, February 28, 2022 at 6:00 p.m. Pursuant to the Town’s Electronic Participation Policy, the meeting will be conducted virtually via Zoom. The Zoom meeting information is provided below. There is potential for an in-person component to the Workshop. In the coming weeks, Town officials intend to exercise prudence and will continue monitoring COVID-19 case counts in Ouray County before making a final decision.

For more information, please contact Preston Neill, Town Manager, at (970)626-5308 x212 or pneill@town.ridgway.co.us.
